

			Collaboration																		
Participant	Cooking Level	Daily routines		Objectives			Process & Interactions				Learning/teaching experiences			Talking contents			Pros & Cons				
	3-4, can handle some complex dishes but cooking process a bit messy	most of time cooking twice a day, packing lunch and making dinner (for single person)	at home and not busy, will make more food and share with roommates	Love to share and talk	Love and enjoy cooking	want a smooth cooking process	Duration: 30mins -1h30mins, depending on the difficulty of the dish.	Interaction: Talking, asking for assistance	talking while cooking	provide assistance when cooking partner are busy with other tasks	Tip to enhance the taste of fried food (learn from online) / (learn from mom)	Learn through observation/ sometimes ask why -> to understand why and the different between what i do and what others do	teaching : Will explain and guide how to cook (to newbies)	Frequency: happen in the whole time, loving talk with people	Mostly sharing and respect other's sharing attitudes.	Topics: not only focus on the dishes, cooking process, or personal stories about this food, but also talk about everyday's life, studying.	Happy and connecting to others, getting a little bit closer.	won't feel sad when the conversation is not going well	Inconvenience caused by others' bad habits	dislike: the limitation of kitchen space	
				very extrovert	don't plan much before cooking		Prefer there's sound in the background.	→ people talking > music	As a guest: assistance; making others happily		teaching: when others asking	teaching: can't stand watching another person cook	Learning: like to explore how to cook a new dish	While assistance: "can you give me a hand in chopping/washing vegs..."	actively asks what help they can provide		Delighted to watch others enjoy the food I made	→ A sense of accomplishment Motivational effect			
	4.5, able to do a lot dishes but still has room for improvement	one meal a day, dependng on timetable	if too many ingredients, will make a large portion at once, sharing	use up the ingredients(freshness)	want to make a specific dish		Interaction: Talking, asking for assistance	一个人做菜,其他室友会自觉一起加入做菜,分别做一道菜,然后一起吃	talking while cooking		Learning : different cooking styles on a dish	teaching: sharing cooking tips	teaching : Will explain and guide how to cook (to newbies)	how to share and organize the kitchen space	topics related to watching videos	preferences of dishes	Warmth and eases homesickness, especially during the traditional festival	lost interest after 2-3 conversation and others don't continue to talk			
		if too many ingredients, will make a large portion at once, sharing		build and bond connection between them			As a guest: assistance; making others happily	provide assistance when cooking partner are busy with other tasks						Topics: not only focus on the dishes, cooking process, or personal stories about this food, but also talk about everyday's life, studying.							
	3-4, confidence, I can cook some basic meals compared with a friend who don't know how to cook	two meal a day		curiosity-driven	Accompanying boyfriend		As an assistant, help with washing vegs, chopping, and 看上火	Reduce distractions, e.g. get rid of cats	prefer one chef control the whole process		Learning : not sure how to handle certain ingredients, like how to cut beef	Learning : copy their recipe	teaching : remind others how to make this	cultural differences on food			Warmth and eases homesickness, especially during the traditional festival	expect to have the connection to roomates	consider other's preferences		
	3-4, as I can cook and confident with most asian cuisine but weak in cooking western cuisine. I also cooked by myself for last 7 years.		Two or one meal per day, depends on the schedule	Prefer home made food and want to follow own diet plan			instruct others while cooking.				Learning : learned cooking through web searching			The things learnt from the food technology course			Upset/ interrupt while ours made wrong steps.	Happy to when there is others to provide suggestion	Happy to have somebody else share their cooking tech and improve the overall taste of the dish.		
	3, have basic skills, but still need to learn	now busy, 1-2 big cook per week	Not busy> everyday 1 cook	to eat	happen to meet in kitechen	curious	meet in kitchen, then talk & cook together	Cook by self, others saw and come to hepl			learning: special cooking tips	learning: right operations	learning: different preference/ custom in different area	Study & Life experience	Food		can eat different delicious dishes, which self might not try or know	connected	happy when sharing food	sometimes the partner's teaching not in details	
		half-half; single vs Collab		Do dish based on food storage	→	when buy ingredient, just buy what i want					learning: prefer human's tailored instruction & teaching, or video tutorial. sometimes online picture tutorial not clear enough		learning: from recipes search engine
